

BLUE LION
TRAINING ACADEMY

LEVEL 2 LEAN MANUFACTURING OPERATIVE

Businesses within the sector range from small family run manufacturing operations to large multi-national companies driving the countries growth & wealth.

The UK's Manufacturing Industry is highly regarded worldwide for its innovation and manufacturing excellence and requires a high degree of skill & knowledge across all levels of their organisations.

A Lean Manufacturing Operative will be expected to carry out their work safely and meet the exacting quality standards demanded in a fast paced and efficient processing environment and develop into a multi-skilled operator through process ownership. A Lean Manufacturing Operative can be required to carry out manufacturing activities on multiple products with different specifications consecutively.

Our online e-portfolio system will guide the apprentices through a simple to follow curriculum aligned to all the required Knowledge, Skills and Behaviours, with a variety of virtual learning environments and insights to the best examples to help excel their learning.

COURSE STRUCTURE

**Insitute for Apprenticeships
& Technical Education**

In addition to the core knowledge and skills of a Lean Manufacturing Operative (LMO) Apprenticeship they must complete ONE of the following job role options:

Job role option 1: LMO working within production/assembly

Job role option 2: LMO working within inspection/quality assurance

Job role option 3: LMO working within logistics/material handling

Job role option 4: LMO working within production processing/finishing

As part of the apprenticeship the LMO will also complete a Level 2 Diploma in Manufacturing (knowledge and skills)

The End Point Assessment will include the following after the EPA checklist has been completed:

Assessment method 1: Observation with question & answers

Assessment method 2: Professional discussion

The observation should take around 2 hours. The Independent Assessor will observe sufficient production cycles to be able to accurately assess the competence of the apprentice. The observation may be split into discrete sections held over a working day.
