

BLUE LION
TRAINING ACADEMY

LEVEL 2

LEAN SIX SIGMA WHITE BELT

The objective of this course is to develop the understanding of improvement tools and how to function effectively as a Lean Six Sigma White Belt.

Who should join?

- Those who want to improve their work and the work of their customers
- Team members wanting to make a difference to how they contribute
- Those wanting to upskill and qualify for future career opportunities
- Managers wanting to know more about the improvement tools
- People responsible for writing supporting process or standardised documentation

To successfully complete this course, professionals must review all of the lessons and complete all of the quiz modules and submit an improvement A3 Using PDCA. The Council for Six Sigma Certification will provide you with an accredited qualification for the subject on successful completion assessed by Blue Lion Training Academy.

COURSE STRUCTURE

Individual lessons also include simulations, toolsets and interactive practice exercises. Each session ends with an interactive quiz to test acquired knowledge.

The course is presented in a logical sequence to follow the PPS – Practical Problem Solving process. We believe that professionals will learn most efficiently by following the sequence presented. In particular, the first session presents an overview of PPS and Process waste, which will be helpful to put the remaining sessions in proper context.

On every page, there is access to a variety of helpful learning tools. Course navigation via the e-portfolio can be used to move through the course in a linear fashion or topics can be explored freely, however suits the learner best.

The coaching days are optional, as this will help in preparation for the assessment related to the PPS and learning checklist. Note the qualification is only supplied once all the checklist is complete and a virtual face-to-face assessment has taken place with a Blue Lion Improvement Coach.
