COUNSELLING & THERAPY

There are many types of counselling and therapy available. Some are private, some are covered by the NHS, and many are provided by charities.

If you are struggling with your mental health in any way, it's always best to go and talk to your GP about your symptoms so they can point you in the right direction. They may refer you to an organisation, therapy or counselling service if they think it's an effective form of treatment. This page touches upon the options you may come across. You can use this information as a starting point.

Online Counselling

The National Counselling Society Counselling Directory

Online counselling is a good option for people who may need a more flexible and convenient arrangement. The two sources above are a useful place to start.

BOOKS & MAGAZINES

Here is a selection of books and magazines you can take a look at. If they are not to your taste, just type some keywords into Google, 'Amazon books' or head to the self-help or wellbeing section in your local bookshop. Don't be shy, it's the section everyone secretly wants to check out!
